

Copie d'Examen :

Oussama Louati ASEDS INE1 2022

Q1>

```
select ACTIVE_STATE , STATUS, INSTANCE_NAME from v$instance;
```

Q2>

```
SQL> select name, value from v$parameter;
```

```
SQL> show parameter shared_pool_size
```

Q3>

Non.

Q4>

SQL*Plus est un environnement.

Q5>

```
SQL>show user
```

Q6>

```
SQL> shutdown immediate ;
```

Q7>

```
SQL>select name, bytes from v$sgainfo;
```

Q8>

a)SQL>alter database add logfile member

'C:\APP\LENOVO\PRODUCT\18.0.0\ORADATA\XE\log01.log' to group 1

'C:\APP\LENOVO\PRODUCT\18.0.0\ORADATA\XE\log02.log' to group 2

'C:\APP\LENOVO\PRODUCT\18.0.0\ORADATA\XE\log03.log' to group 3;

b)SQL>alter database set CONTROL_FILES=

'C:\APP\LENOVO\PRODUCT\18.0.0\ORADATA\XE\control03.ctl' ;

c) SQL> show parameter control_files;

Q9> b.

Q10> Quand on créer une base de données , on a le privilege de se connecter à la base des données et aussi de créer des tables, et des privileges d'objet.

Q11>

- 1-connexion en tant que SYSDBA
- 2-shutdown
- 3-startup nomount
- 4-alter system set control_files=' '
- 5-shutdown
- 6-startup

Q12>le processus ARCn

Q13>

SQL>create tablespace TS_TAB_AIRBASEx DATAFILE ts_tab_airbasex SIZE 20M;

Q14>

- a) SQL> create user demo identified by ok default tablespace users
Temporary tablespace temp;
- b) SQL>select default_tablespace, temporary_tablespace from dba_users where lower(username)='demo';
- c) SQL>connect [demo/ok@192.168.1.3:1521/XEPDB1](#);
- d) SQL> grant create session to demo;
- e) SQL>SQL> alter user demo identified by merci;

Q15>

- a) SQL>create user oussama identified by aseds default tablespace users quota 10 M on users;
- b) SQL>Grant create session, create table to oussama;
- c) SQL>Connect [oussama/aseds@192.168.1.3:1521/XEPDB1](#);
SQL> create table oussama.emp (
2 code NUMBER(4),
3 name VARCHAR2(30));
- d) SQL>select bytes/(1024*1024) as espace_occupe from dba_ts_quotas where lower(username)='oussama';
- e) SQL>insert into emp values(7000, 'oussama');
- SQL>insert into CUSTOMERS values(7000, 'hamid');
- f) SQL>select username, default_tablespace , account_status from dba_users;
